

Praxis SCI Incubate Demo Day 2022

Praxis Spinal Cord Institute invites innovators, entrepreneurs, people with lived experience, health system partners and donors to attend SCI Incubate Demo Day.

[DONATE](#)

Discover Cutting-Edge Medical Technologies

SCI Incubate Demo Day features pitches from entrepreneurs driving innovation in healthcare related to spinal cord injury.

Learn about some of the most cutting-edge medical technologies in the market. Meet the entrepreneurs changing the future of care for spinal cord injury (SCI), and discover what it takes to move your innovation to the next level.

MEET THE JUDGES

Jennifer French, Founder and Executive Director of Neurotech Network, helped launch successful divisions in Bombardier Capital, Connection, as well as several nonprofit organizations and patient engagement programs. She lives with tetraplegia due to an SCI. Watch her [TED Talk](#): *How Bionic Pioneers of Today Can Change us Tomorrow*.

Alex Arevalos, CEO and Cofounder of Starling Medical, spent his career founding medical device startups, including Saranas and Alleviant Medical. Starling Medical, focused on developing the world's first digital urinary diagnostic remote-user monitoring platform, is an SCI Incubate alumni member and has been accepted into [Y Combinator](#).

Richard Toselli, President, CEO and Chief Medical Officer of InVivo Therapeutics, is a board-certified neurological surgeon. He is passionate about redefining treatment for SCI and improving on a standard of care that has remained unchanged throughout his 30-year career in spine both in academic practice and industry.

ABOUT PRAXIS SCI INCUBATE

Praxis is a Canadian not-for-profit leading global collaboration in spinal cord injury research, innovation and care. SCI Incubate is the world's first SCI-focused start-up incubator. Through the program, Praxis invests in companies with the potential to create transformative technologies to improve quality of life for people with SCI.
